Alternative Transportation Programs

Pirate BikeShare is one program we offer that allows individuals to lease a refurbished bicycle for an entire semester at a very low cost. Every semester our office rounds up all the abandoned bicycles left by students. After time and contact cannot be made with the owner, the bicycle becomes state property. Our department then paints them the Pirate purple and gold colors, makes sure they receive all the proper repairs and maintenance and then recycles them back out to the campus community to use. Students can sign up at the Parking office on 10th Street.

Visit: www.ecu.edu/bikes

The Bike Rental Program is for those individuals that want to enjoy the pleasures of biking just occasionally rather than for the entire semester. This program allows riders to rent bikes by the day, the weekend, or for an entire week for a very low cost. Riders will receive a helmet, lock and front and rear lights. All riders can sign up for the program at the adventure desk in the Campus Recreation Center during Adventure program business hours. Please check their website for current hours of operation.

Car-Sharing:
Enterprise Car-shares is a car-sharing program perfect for students, faculty and staff that do not have a car on campus. Membership is not limited to those people without cars, though! Some members enjoy the cars to save money on gas, lower the wear and tear on their own vehicles, and/or for the luxury of driving a brand new hybrid or fuel-efficient car! Members pay an affordable hourly rate which includes gas and insurance. ECU Parking & Transportation together with Enterprise’s car-sharing program help faculty, staff and students to reduce the congestion, fuel consumption and vehicle emissions for a cleaner, greener campus!

Ride-Sharing:
Zimride is a ride-sharing network that helps members of the ECU community find, post, and coordinate carpooling alternatives to individual transportation needs. Zimride is very much like Facebook, it provides a central location for finding out about member-posted ride needs and offers, and helps get individuals connected for mutually beneficial ride arrangements. Membership registration is not required.

The ECU Transit System is another great department available to students that will not only take them around campus, but around town, too. For more information, visit www.ecu.edu/transit.

Bicycle Safety Tips
➤ Ride with traffic and obey the same laws as motorists.
➤ Always look back and use hand and arm signals to indicate your intention to stop, merge or turn.
➤ Ride where drivers can see you.
➤ Wear brightly covered clothing at all times.
➤ Ride in a straight line and don’t swerve between parked cars.
➤ Be aware of the traffic around you and be prepared to take evasive action.
➤ Learn braking and turning techniques to avoid crashes.
➤ Always wear a helmet.
➤ Make sure that the helmet fits on top of your head, not tilted back or forward.

Other Helpful Tips
➤ Make sure you are displaying your permit properly.
➤ Do not park in a fire lane or any other service/maintenance area.
➤ Do not park in a reserved space.
➤ Park in the appropriate zoned parking lot for the type of permit you are displaying.
➤ Do not park in a handicapped space without proper authorization from our office.
➤ Make sure your vehicle is properly registered in our system.
➤ If you lock your keys in your car or need a jumpstart while on campus property, then call our office. We’re here to help free of charge!

Enjoying Nature

ECU Parking has partnered with the Adventure Program from Campus Recreation & Wellness in a continuing effort for a more bicycle friendly campus & community.

For the adventure and nature-lover, make sure you check out the excursion event calendar on our bike website at www.ecu.edu/bikes or at adventure.ecu.edu. Events include cruising the Greenville Greenway bike trails, safety classes, and bike clinic dates and times. Some of these events are free, too, so make sure you check the calendar frequently. Whether it’s for the environment, for your health or just for fun, get out and start riding today!

Planning to Park on Campus? You’ll Need a Parking Permit!

New to Campus Parking?
A valid parking permit is required to park on the ECU campus. We operate according to a lettered parking zone system to designate zone restrictions for each parking lot. Each lot will have a sign at the entrance of it that will tell you what zone that lot is restricted to. Each letter associated with a zone has a number alongside of it that will indicate the different levels of access. All odd numbered zones are for faculty and staff, while the even numbered zones are for students. After certain hours, which are outlined on the signs at the entrance to all the lots, other types of permits can begin parking in the otherwise restricted lots.

We also provide parking meters for short-term parking. These meters must be kept activated at all times, even if you have a permit. If you are ever unclear as to when you can legally park in a certain lot, our office staff is available for clarification during our regular business hours. Our website also serves as a wonderful resource for everything you need to know about parking on campus and more!

Visitors
Visitors to the main campus will find convenient parking in several visitor lots we have around campus. Parking meters are available for visitors needing short-term parking, while a Visitor permit must be purchased for longer visits. Visitors displaying their state-issued disabled parking placards will need to express to our cashier’s while purchasing their Visitor permit that they are in need of medical accommodation for authorization to park in the handicapped spaces while on campus.
